

TWISTER

Game Suggestions:

Traditional TWISTER

Accessories: none

The game is played with 3 players. One player acts as a referee. The game is played 1-on-1.

The 2 contestants place themselves on either side of the 24 pads. The referee indicates (by performing the movement itself) where the contestants must place their hand or foot. E.g. right foot is placed on a blue pad.

The game continues until one of the participants touch the surface with anything other than hands and feet. A new referee is then appointed and the game continues.

3 in a row / 4 in a row

Accessories: Beanbags

The field with the 24 pads is used to play three in a row.

The blue or yellow row of circles/pads represents the "bottom" of the board.

The players take turns placing a beanbag, the first to get 3 or 4 beanbags in a row wins.

The direction of these must both be horizontal, vertical or diagonal.
